Product overview

Sony Xperia™ Ion – Experience Intense Power

There's fast, and then there's *fast*. So why wait? Browse the web and download apps at incredible speeds. Shoot HD videos, take pictures in a snap, and share them all on the stunning 4.6" HD screen. In just a few clicks, enter a wider world of movies, music, and games. With the Sony Entertainment Network, boredom is never an option.

Get what you want...fast

Get what you want without the wait. Browse the web, stream music, watch videos. Download your favorite games and apps. All in an instant. On AT&T's LTE network and a 1.5 GHz dual processor, the Xperia™ Ion keeps you connected. Always. And fast.

See every detail

Experience videos, photos and your favorite TV shows in vivid, bright colors on the stunning 4.6" HD Reality Display with Mobile BRAVIA® Engine. Crisp images. No jagged edges. With reduced light reflection, the picture stays clear when you're outdoors too. Merely the best entertainment experience in HD.

Snap your shots in an instant

Some events are too good to miss. Now you don't have to. Activate your 12MP camera and take your first shot in just over a second. Keep shooting with only one second between shots. No delays. No missed moments. Even in low light conditions, the Exmor R™ for mobile camera sensor lightens up any gloomy day.

Show it like it is

Vacation videos, baby's first steps...record it all in brilliant HD video with one touch of a button. Connect your Xperia™ ion to an HD TV and relive those moments from the comfort of your couch. Want to share moments together? Chat away on the front-facing HD chat-cam. Perfect for video calls.

**Sony Entertainment Network Video Unlimited and Music Unlimited are not available in every market.*

Sony Entertainment Network. Your ultimate source for digital entertainment

Hot tracks, latest films. Enjoy millions of songs and thousands of movies. It's all on Sony Entertainment Network services - Music Unlimited and Videos Unlimited, exclusive to Xperia™ smartphones. No trips to the store. No lines. No late fees. Just pure entertainment.

Enjoy everything with one account. It's the perfect fit for a life full of entertainment.

**Sony Entertainment Network Video Unlimited and Music Unlimited are not available in every market.*

Signature features

The Sony Xperia™ Ion comes with a range of Sony Ericsson features as standard. Below is a summary of the key signature features.

Sony Ericsson Timescape™

The place to meet your friends

The Timescape™ application manages all your communication with one person in one place. You can effortlessly browse by category your Facebook™, Twitter™, email and text communications, as well as view your photos. Now everything is all together and in chronological order, so you don't have to open different applications to see what's going on.

Sony Ericsson Infinite button

Everything you want – from everywhere

Tap the infinite button in the Timescape™ application and smart filter each category of communication by person. For example, when viewing a text message from a friend in Timescape™, tap the infinite button to view a list of all chat messages with that friend.

Sony Ericsson Local connectivity

More control over your media

Using Sony Ericsson Local connectivity, you can exercise more control over how media files get transferred and stored. For example, you can select MTP mode to transfer files if you want to limit the risk of data corruption or select MSC mode if you want to have more control over the data storage.

Sony Ericsson Home screen application

The place you call Home

Customise your Home screen with widgets, shortcuts, folders, themes, wallpaper and other items. Where's best for you? Email top right? Music player bottom left? You decide. With four extensions to your Home screen, you've got plenty of space to put things where you want. Just remember to flick left or right to find them.

** Applications from the Android Market™ vary widely in size, from less than 100 KB for small utilities to couple of MBs for complete games, music player applications, or other major offerings. The average size, if a representative selection of useful and fun applications is selected, is about 1 MB. This means that, on average, more than 100 applications can be downloaded and used on your device without negatively impacting performance. With the ready availability of the Android Market™ application in the phone, it is also very easy to delete and later reinstall infrequently used applications.

Positioning – location based services

Supported standards:

- OMA Secure User Plane Location (SUPL) v1.0
- 3GPP™ Control Plane location (incl. Emergency location)
- Qualcomm® GPSOneXtra™

Supported satellite systems:

- GPS
- GLONASS*

* **NOTE:** GPS and GLONASS are used together to calculate the position. Positioning is more robust and accurate in most conditions, if both systems are active. The benefits of using GLONASS are automatically available for all applications using the Satellite Positioning API ("GPS Provider" in Android terminology).
